

## BONA Floor pads Product Description

Floor pads from Bona are used in many different occasions - sanding in between coats, oiling the floor, polishing the floor, cleaning the floor or as a backing for a net would be some fields of application where our pads are excellent facilities applied on the buffer.

The lighter the colour, the less aggressive is the pad to the buffed surface.

**Field of application:** For buffing, oiling and polishing of all kinds of wooden floors and parquet floors.

### Technical Data and applications

**Available sizes:** Diameter of 280mm, 330mm and 407mm

**Material:** Nylon / Polyester fibers

**Black:** For basic cleaning

- An aggressive stripping pad. Particularly suitable for fast floor stripping from varnish to the bare wood. Often used with stripping agents.

**Brown:** For oil coating

**Green:** For wet cleaning

- A Scrubbing pad. Designed for the removal of wax coatings, dirt and scuff marks.

**Tan (Beige):** For polishing

- A polishing or buffing pad. Suitable for light dirt removal leaving a shiny surface.

**Red:** For spray-cleaning

- A pad for everyday use. Removes light surface blemishes and scuff marks to give a smooth and shiny finish.

**White:** For backing of sanding screen or polishing

- A fine polishing pad producing a burnished or gloss finish. Ideal for cleaning and polishing both dry and softly waxed floors. Often used with creams and polishes.

**Maroon:** For between coats sanding
