- ▶ QUICK DRYING TIME
- ▶ WATER-BASED
- ▶ LOW ODOUR
- ▶ SAFE TO USE
- ▶ SPECIFICALLY DEVELOPED FOR WOOD FLOORS

*the new generation*

# 7500 & 8500 Fillers

## APPLICATION:

Lecol fillers have been specifically developed for the easy filling of joints and damaged spots before sanding and finishing on all types of wood flooring. Both fillers are mixed with the fine sanding dust from the floor to be filled to obtain a paste. Lecol fillers ensure a good even colour match with the floor.

## LECOL FILLER 7500

This solvent based filler is considered the best filler by professional floor fitters. The very fast drying time allows sanding after a very short period of time. Very easy to use. Very good filling properties and good adhesion.

## SIZES:

Lecol 7500 is available in 3 sizes:

- 10Kg
- 5Kg
- 0.8Kg

## LECOL EASY FILL 8500

Lecol has developed a water based alternative to the solvent based filler 7500. The Lecol Easy Fill 8500 has a quick drying time, low odour and is safe to use. Good filling properties and adhesion.

## SIZES:

Lecol Easy Fill 8500 is available in 5 Litres.
